

Goodbye Dear Old Friend

By: Kylie K.

Words: 370

Goodbye dear old friend
I'm sorry it came to an end
From every bad day
To every good day
Spent by your side
Has been an amazing ride
I know our friendship is done
But I have cherished and loved all our fun
We've fought together day and night
Not knowing we'd have the biggest fight
I know this is the end of the road
But I loved every day we drove
Goodbye dear old friend
Why must it come to an end
With you came my biggest fight of all
Even if I've only known you since fall
It all came to an end so soon
If you're the sun, then I'm the moon
Your amazing radiant lights
Have guided me through the night
From every hour of every day
To every game we had to play
I know I may seem mad
But I rest in my hands always so sad
After all our tiny fights
We've solved them and had many happy nights

It has come down to this giant fight
I always look back, loving our memories every night
At the beginning, our friendship strong as glue
Could surpass any storm people threw
But soon it would break apart
Shattering my loving heart
I see you day after day
Causing me in a puddle of pain
Growing up I've always been so tense and tough
But thanks to you I have loosened up
Shortly before winter break
We had to take a minor break
I got overwhelmed in that moment
Screaming at you, what was said wasn't meant
You have made it very clear
Our days of joy are ending near
The friendship was built on pure love
And for that I thank the lord above
Everyone is asking if we are still friends
And every time I die saying it's at an end
Our friendship wasn't at all very long
But even then everyone could see it was strong
Our friendship was like a rose
Losing a petal every time a fight rose
Every second was priceless if it was with you
And that is something I truly didn't want to lose.
Along with our friendship, my story's at an end
Goodbye dear old friend
