

Melva S.

## Unknown Video

This story is about three girls named Melissa, Lola, and Betty, three best friend with a magical friendship bracelet. One day at Eastern High School, Melissa asks Lola and Betty if they want to go to the masquerade ball with her on Friday as a group of friends. Lola responds saying, "Can't go, have to baby-sit my little sister" and Betty sighed, " I have homework". So Melissa replied, " I will go alone." So, Friday afternoon, Melissa was getting ready for the ball. She made it to the ball, and still had fun even though she was alone with other people from her school. She was enjoying herself until midnight, she received a video from unknown. She clicked on the video and saw it it was her two best friends having fun with her kindergarten enemy, Melanie Martinez. Melissa was to upset to party, she went home and fell asleep. In the morning she didn't get up or go to the mall like she usually does. She waited 'till Monday. During school, she gave Lola and Betty the silent treatment until lunch. She showed them the video, and then ran away before Lola and Betty could respond. When Melissa got home, she noticed her friendship bracelet was falling apart. She was too sad to care. After a month of the girls giving each other the silent treatment, they talked and made up that day. After school, she looked in her dresser for her friendship bracelet. She found it, and she realized it was fixed. "I guess friendships are magical." she thought. The next day during school, she was with Lola and Betty and asked them if they knew who send her the video. Lola and Betty said they didn't know. They didn't really care, so they ignored it for a little while, then they realized it wasn't just a mystery for them it is also for the reader. [ The End. Wait, not the end yet, I am going to tell a little secret to the reader. Somebody was watching Melissa, Lola, and Betty, and they didn't know.]
